## TECHNICAL SKILLS

**Expertise in:** Modern JavaScript, Vue.js, React, HTML/CSS, SCSS

**Familiar with:** Typescript, Node.js

**Used before:** Python/Django, Ruby

## RELEVANT EXPERIENCE

### **Software Engineer, Front End**

#### ***Lumen Learning***

October 2019 - present

- Use Vue.js and React to build modern UIs for open education platforms
- Documentation champion: perform technical investigations of legacy codebases, create missing documentation, make recommendations for refactor
- Build prototypes for screen reader testing; efforts helped create the first fully accessible accounting course in the US
- DEI champion: Helped team develop processes and hiring practices that promote equity, diversity and inclusion

### **Software Development Instructor III, Full Stack JavaScript**

#### ***Treehouse***

August 2015 - June 2019

- Responsible for all aspects of developing JavaScript video courses for an online learning platform reaching a global audience of 100k+ students: research JavaScript technologies, build example web applications, design coding challenges and coding projects, write detailed scripts, perform on set and record in screencast
- Created courses and workshops on Vue.js, JavaScript fundamentals, REST APIs, Node.js/Express, HTML/CSS, asynchronous JavaScript, tooling, code review
- Continually improved upon web development curriculum by improving up and coding new example applications in a variety of technologies: React, Angular, Node/Express, Mongoose/MongoDB, SQL/Sequelize

### **Front End Developer**

#### ***Cinder Solutions***

November 2015 - March 2016

Responsible for all things front end as part of a small agile team building web-based business management software with Python/Django. As the sole front end developer on the project, was responsible for converting the project to Sass and building an Angular front end. Became an expert on Reading Documentation and Figuring It Out.

### **Front End Web Developer**

## ***JAST Media***

April 2015 - Oct 2015

Built and maintained fully responsive, pixel-perfect websites from Photoshop mockups for small and mid-sized businesses at busy digital marketing startup. Used HTML/CSS, JavaScript/JQuery, Bootstrap, LESS, Photoshop daily. Created dynamic custom forms, designed and built reusable page themes.

## EDUCATION

**Full Stack Web Development**, PDX Code Guild: JavaScript, Python/Django, 2015

**Master's Degree**, Postsecondary and Adult Education, magna cum laude, Portland State University

**Bachelor's Degree**, General, magna cum laude, Portland State University
